

REHABILITATION OF KYEMA, KISWATA - KIROYA FEEDER ROAD- MASINDI DISTRICT

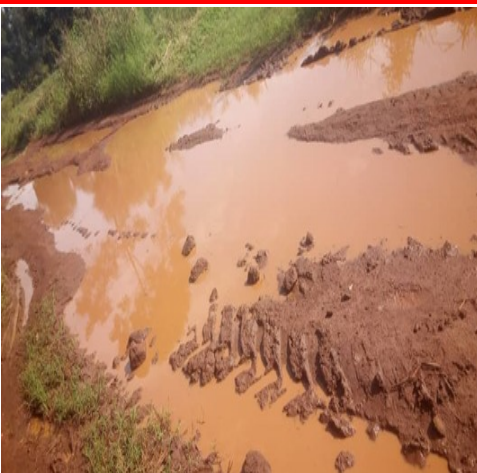

Introduction

The approach of Community Monitors was introduced at the end of August 2018 where a number of youth were selected for a five days training facilitated by Uganda Debt Network (UDN) through RDP Uganda with funding support from Democratic Governance Facility (DGF). This under a 3year project titled Strengthening Organizations Organization, Participation and Engagement (SCOPE).

Case of :- Kyema, Kiswata - Kiroya feeder road.

A team of 7 monitors organized a monitoring visit to Kyema, Kiswata to Kiroya road including other feeder roads in the division.

It was established that this road was impassable and was likely to cause danger to women

The Kyema, Kiswata - Nyakitibwa feeder road before the intervention of CBMs on 04th / October / 2018 .

going for maternity services and other community road users. After the monitoring visit, they raised the issue to their LC1 Chairperson who advised them to write a letter to RDC and DPC demanding for the rehabilitation of the road or else they conduct a peaceful demonstration, this prompted the RDC to call the Municipal Major to his office.

The Major responded but claimed that he did not have any idea about the status of the road but committed to instruct the Town Clerk to work together with the engineer to ensure that the road is put into usable condition.

Conclusion.

Following these interventions, We would like to appreciate the role played by all the different stake holders in ensuring that this road was worked on.

The same road after works had started costing 2.5m on 30th/November / 2018.

APPRECIATION

UDN appreciates support by: Membership; [DGF](#); [DCA](#); [Save the Children in Uganda](#); [Inspectorate of Government](#); [IBP](#) and [Trocaire](#).
